

TOGETHER & FOR TOMORROW

**SIA supports you  
in your industrial  
investment project  
in Africa** relying  
on a unique expertise  
in engineering &  
establishing «turnkey»  
factories.

Possessing 40 years  
of experience in the food  
industry and great knowledge  
of the African continent, SIA's  
people engineer your project  
from the design stage to  
the start-up of the factory.

# TOGE & FOR TOM

## Think local to maximise profitability

SIA is not satisfied with simply applying European processes to Africa. Its knowledge allows it to implement the unique processes and technology solutions which fit your market and make use of local raw materials. Thanks to these innovative techniques, SIA can guarantee you a particularly fast return on investment.

## Innovative «turnkey» solutions

SIA offers comprehensive management of your project : auditing, research, design, equipment delivery, installation and commissioning, staff training, documentation and maintenance.

In order to optimise costs and ensure a local service, SIA has experienced local teams in place for installation and maintenance.

## Many complete factories in food industries

Dairy Products

Ice Cream & Sorbet

Butter & Margarine

Fruit Juice & Drinks

Spreads

## RESEARCH & DESIGN

Engineers from our **integrated research department** determine the processes and equipment suitable for the implementation of your industrial project. We can also assist you in designing your buildings and infrastructure.

## INSTALLATION & COMMISSIONING

**From the delivery of equipment to the installation of production facilities**, the SIA teams rely on local expertise. The start-up of a food factory is a delicate operation. The product must be of perfect quality from the first day onward. That's why our technicians perform numerous tests on site with you.

## TRAINING & MAINTENANCE

The first moments of production start-up are often critical. They shape the image of your brand. SIA supports you during this start-up phase and helps you **to develop recipes** and **train your staff**.

## SOURCING & SUPPORT

SIA is also able to support you throughout the entirety of your **industrial investment project**. In particular, we offer a sourcing operation to search for suppliers of raw materials and packaging.
