

GLOBAL SOLUTION FOR FOOD PROCESSING PLANTS

# Margarine

# Margarine

**Margarine was invented in France in the nineteenth century, to compensate for the lack of butter in certain regions.**

In Africa today, margarine has supplanted butter and is widely used in every country.

SIA can offer all types of margarine:

- Cooking margarine
- Spreadable margarine
- Low cholesterol margarine
- Margarine spread with up to 25% oil and 75% water
- Etc...

HEADQUARTER : PLACE DES ANCIENS COMBATTANTS D'INDOCHINE | 27400 LOUVIERS

## PRESENTATION

The technologies and the recipes used allow for the margarine to be preserved for several months outside the cold chain.

## PACKAGING

Margarine, depending on the type and its purpose, can be packaged :

- In tubs
- In blocks
- In wholesale bulk volume
- In sticks
- Etc...

**SIA has experience with all types of packaging.**
